

BD 1000 DUAL VOLTAGE (110/230V) INDUSTRIAL DEHUMIDIFIER

BD1000 is a powerful dual voltage (110v/230v) industrial dehumidifier designed for the rigours of construction sites.

Fully portable with a rigid handle, large semi-pneumatic wheels and built-in vehicle loading skids, this industrial dehumidifier is perfect for construction drying and flood recovery.

BD1000 DUAL VOLTAGE INDUSTRIAL DEHUMIDIFIER

| BD 1000 Dual Voltage (110/230V) Industrial Dehumidifier | |
|--|---------------------------------|
| Voltage - Dual Voltage (V) | 110 / 230 |
| Condensate Pump Lift Capacity (m) | 6.1 |
| Water Removal Capacity (AHAM) | 25 litres/24hrs @ 60% RH / 27°C |
| Water Removal Capacity (Max) | 48 litres/24hrs @ 90% RH / 32°C |
| Water Pump Out | Automatic |
| Sound Level (dB (A)) | 73.4 |
| Air Movement (m ³ /h) | 800 |
| Running Current (A) | 3.3 / 6.5 |
| Operating Temperature (°C) | 1 - 38 |
| Length | 510mm |
| Width | 500m |
| Height | 850mm |
