

10kW of heating & cooling capacity for when you need both, small footprint, flexible & perfect for event applications.

- Air to water heat pump chiller
- Heating & cooling capacity
- Used in event hire, warehouse & distribution

Detail	10kW Heat Pump Chiller	
Performance Data	Chiller Model	
	Duty	7.46 (cooling) 8.46 (heating)
	Inlet Temperature	
	Outlet Temperature	
	Ambient	
	Compressor Power	
	EER	
	Compressors	
	Compressor Type	
	Capacity Steps	
	Noise Level	69 dBA @ 10 Metres
	Dry Weight	150 kg
	Dimensions mm (WxLxH)	690 x 1950 x 1780
	Control	
	Buffer Tank Capacity	30 litres
	Water Connection	1"1/4 Camlock"
	Water Pump	
Maximum Flow Rate		
Refrigerant	Type	
	No. Of Circuits	
Evaporator	Design Flow	1.6m ³ /hour
	Pressure Drop	
	Max System Pressure	
Condensor	Fan Quantity	
	Fan Type	
	Max Air Volume	
Electrical	Power Supply	415V 3PH+E 50hz
	Running amps	
	Power Consumption	
	Full Load Amps	
	Start Amps	
	Total Current LPA	
	Unit Connection
