

PowerBlow Carpet Dryer

www.crosshireservices.ie

Heating & Cooling

Ideal for the fire and flood sector thanks to its tough polyethylene exterior. It makes light work of drying carpets and building fabric after a flood, for example. It boasts a powerful laminar air flow and runs off a standard 13amp power supply. We can also supply Class 1 models for hazardous settings.

It's a machine that you can use in wet fogging uses too – in areas where such uses are thought to be both safe and desirable.

Specification Overview

Air Volume (m ³ /h)	6000
Dimensions (W x L x H)	470 x 440 x 520mm
Weight (kg)	14
