

DESIGNER AIR CLEANER AIRGOCLEAN 10 E

Providing fresh air – neutralizing pollutants

The Designer Air Cleaner AirgoClean 10E is a practical solution to eliminating airborne pollutants and unpleasant odours.

Two-stage room air filter system with Dacron pre-filter and HEPA filter with integrated ioniser purifies the air efficiently. The synthetic fibre filter serves as pre-filter for odours of slight to medium intensity as well as for coarse office dust. In the second stage the efficient HEPA filter eliminates up to 95% of bacteria, viruses, pollen, dust mite residue, mould fungus spores (sized up to 1.0 micrometre) and other allergens, so that only clean and healthy air is returned to the room.

AIRGOCLEAN 10E	
Features	3 fan levels Compact and powerful with easy operation Portable and standing device with feet Lightweight at 2.5kg 18.3 l x 27.2 w x 29.6 h (cm)
Target Areas	Reduces air contaminants in: <ul style="list-style-type: none"> • Rooms up to 20m² • Shared spaces • Commercial spaces
Equipment	Ionisation HEPA Filter Pre-filtering Cleaning volume max: 135m ³ / hr Low noise max: 55 dB (A)
